

Abita Springs Elementary Ms. Stogner's updates

Our school has once again experienced a very different and difficult year. We are blessed to have an awesome staff, who are still dedicated to your child loving school and having fun. We are planning to still include you as much as we are allowed by the CDC guidelines. Please keep in close contact with your child's teacher and his education.

Each child is sent home with a Monday memo that explains the weekly guidelines, events, standards the teacher is covering, homework, etc. Please make sure you are reading these letters so you will be aware of the happenings and needs of your child at school.

Our Title 1 money is federally funded allocations to help our students be successful. We use this money to tutor students, have available remedial and accelerated programs, have the tools they need to have hands on learning, do professional development with teachers, send notifications home to you for things our students are doing/learning, stipend our teachers for staying after school to work together on needed curriculum, and provide extra support for our students and staff.

This year, we are going through Cognia (recertification). It is a program designed to look at what a school is doing to increase achievements of students while providing a safe and secure environment for students/staff. All stakeholders are invited to be a part of this process. Currently there is a survey on our website for you to participate in this process. Please go in and fill out the survey if you have not already done so.

Please always feel free to call me for concerns or questions at 985-892-8184 school or 985-373-4380 cell.

Ms. Stogner, Principal
